

FELLOWSHIP TERMS OF REFERENCE

I. IDENTIFICATION OF THE POST

Title:	Energy and Environment Policy Fellow
Sector of assignment:	Green Policy Research
Organizational unit:	UNDP China
Country and Duty Station:	Beijing, China
Fellowship duration:	12 months
Desired Start Period:	Jan, 2026

II. CORPORATE BACKGROUND:

UNDP works in about 170 countries and territories, helping to eradicate poverty, reduce inequalities and exclusion, and build resilience so countries can sustain progress. As the UN's development agency, UNDP plays a critical role in helping countries achieve the Sustainable Development Goals.

III. FELLOWSHIP OFFICE BACKGROUND:

United Nations Development Programme (UNDP) China is the China country office of the United Nations Development Programme – the global development network of the United Nations. UNDP has been working in China over the past 40 years, partnering to advance various phases of China's development. We provide development advisory services and implement projects through innovation and applying our international experience and network in three pillars: supporting China's transformation to a low-carbon economy so that more people enjoy a cleaner, healthier environment; facilitating China's shift to using the SDGs as a standard for its inclusive development, economic decisions and investments, and supporting China's international cooperation and south-south engagement for SDG attainment.

The Fellowship Programme, in collaboration with partners, marks the first step in the SDG Fellowships Accelerating Sustainable Transformation Initiative (SDG FAST). It is designed to develop a pipeline of talented young professionals who are engaged and supporting to accelerate the SDGs and national development priorities in China. The fellows will also have the opportunity to gain access to extensive learning resources, including relevant practical knowledge, corporate learning materials, domestic and international working experiences, under the mentorship and supervision of professionals in UNDP China.

As the largest developing country, a leader in South-South Cooperation (SSC), the largest green-house gases (GHG) emitter, and a large investor in other countries including in carbon-heavy sectors, China has a decisive impact on SDG outcomes. Its decisions will play a key role in addressing climate change at the national and global levels. The carbon neutrality pledge, as well as the 14th five-year plans, provide a unique opportunity for UNDP to accompany this policy change. Against this background, a just and inclusive low carbon is listed as a top priority by the Country Programme Document.

Fellowship Scope: The Fellow will have the opportunity work closely with the Strategic Partnerships and Policy Team under the supervision of the Team Leader to strengthen the effectiveness and impact of UNDP's support to China's climate agenda. He or she will support the research and policy colleagues, as well as collaborate with programme colleagues on **developing policy-relevant knowledge products related to climate change and nature-positive solutions to accelerate a just and inclusive low-carbon transition.**

IV. DUTIES:

The Fellow will assist in the following duties and responsibilities:

No	Duties and responsibilities	% of time
1	Provide Policy Research and Analysis for Knowledge Products on Climate, Energy, and Low-Carbon Development <ul style="list-style-type: none">Support research and analysis on climate and energy, green and blue economy and their opportunities in China to accelerate implementation of the SDGs; specific thematic areas around the low-carbon development and just transition, including carbon pricing, carbon tax, carbon trading schemes, non-CO2 greenhouse gases, biodiversity, waste management, circular economy and environmental policy.Support on the mapping of renewables' technologies and capacity building for low-carbon development.Identify reliable sources of information and contribute to the development of UNDP's policy research networks in the areas above.Support the drafting of UNDP's knowledge products around Country Office's priorities.	50%
